Here's Help Culinary

A success story

His name is Rolando Suero. He is 22 years old and has been fighting substance abuse for the past 6 years. When he came to Here's Help, he recognized all of the beneficial opportunities we had to offer. With the various programs he became involved in at Here's Help, he turned negative notions of himself into prosocial behaviors. Here's Help made a difference and he really took charge in getting his life back on track. After graduating from our program in November of 2021, he started studying at the Youth Automotive Training Center (YATC). He successfully graduated from YATC and now has a scholarship to continue his education at Miami Dade College.

The culinary class learns every day to prepare delicacies!

Sponsored by Here's Help Inc., Thriving Mind South Florida and the State of Florida, Department of Children and Families.
